SKILLS

- **Programming Language:** JavaScript, C, C++.
- **CS Fundamentals:** Data Structures and Algorithms, OOPs, DBMS.
- **Web Technologies:** HTML5, CSS3, DOM Manipulation, Asynchronous JavaScript (Async JS), APIs, ReactJs, Redux, React hooks, React Router, npm, NodeJs, ExpressJs, MongoDB.
- **Tools:** VS Code, Git, Github.

PROJECTS

Food Ordering Website | Full-Stack MERN Project

- Developed a full-stack web application using **MongoDB, Express.js, React, and Node.js** for seamless food ordering.
- Implemented **dynamic product catalog** with search and filter functionality for food selection.
- Built **order placement workflow** with delivery information capture and real-time order tracking.
- Integrated **Stripe API** for secure online payments, supporting multiple payment methods.
- Designed **responsive UI/UX** ensuring smooth experience across desktop and mobile devices.
- Applied **RESTful APIs** and **JWT authentication** for user login, order history, and secure transactions.
- Deployed application on **Render** with optimized performance and scalability.

Burger Website:

A sleek and responsive burger-themed landing page built to showcase modern frontend design principles. This project highlights a clean UI with bold typography, vibrant imagery, and intuitive navigation. Key sections include:

Tech Stack: HTML5, CSS3, JavaScript.

EDUCATION

2023 - 2026 | IGNOU (Indira Gandhi Open National University)

Bachelor of Computer Applications (BCA)
