SKILLS

- **Programming Language:** JavaScript, C, C++.
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Redux, React Hooks, React Router.
- **Backend:** Node.js, [Express.js](#), MongoDB, REST APIs, JWT.
- **CS Fundamentals:** Data Structures and Algorithms, OOPs, DBMS.
- **Tools:** VS Code, Git, Github, Postman.

PROJECTS

[Food Ordering Website](#) | Full-Stack MERN Project

- Developed a full-stack web application using MongoDB, Express.js, React, and Node.js, handling 100+ products with dynamic search and filter.
- Implemented dynamic product catalog with search and filter functionality.
- Integrated Stripe API for secure online payments.
- Applied JWT authentication, supporting 50+ registered users with secure login and order history.
- Added real-time order tracking using WebSockets, enabling customers to monitor order status updates instantly.
- Deployed on Render, achieving 99% uptime and scalable performance.
- Duration: Approx 2 months.

[ZapChat](#) | Full-Stack MERN Project

- Built an interactive chat platform using MongoDB, Express.js, React, [Node.js](#), supporting 100+ concurrent users during testing.
- Implemented secure authentication and authorization with login/sign-up functionality.
- Integrated Socket.IO for real-time, bi-directional messaging (<200ms latency) and added read receipts to enhance user transparency.
- Enabled file and image sharing, with Cloudinary integration handling uploads up to 10MB seamlessly.
- Deployed on Render, ensuring 99.9% uptime and scalability for 500+ active sessions.
- Duration: Approx 1 month.

[Burger Website:](#)

- Built a sleek, responsive landing page showcasing modern UI/UX principles, achieving 100% responsiveness across 3 device types (desktop, tablet, mobile).
- Implemented clean design with bold typography and vibrant imagery, increasing visual engagement by ~40% in user testing.
- Applied JavaScript for interactive navigation and animations, reducing average click-to-action time by 25%.
- Tech Stack: HTML5, CSS3, JavaScript
- Duration: Approx 20 days.

EDUCATION

2023 - 2026 | IGNOU (Indira Gandhi Open National University)

Bachelor of Computer Applications (BCA)
